 Delivered by Carrier \$1.25 Per Month

\$10 REWARD.

A reward of \$10 will be paid for information that will lead to the arrest and conviction of parties stealing The Bonanza from subscribers.

TO SUBSCRIBERS.

Parties who do not receive their papers, or who have any cause of complaint, will oblige The Bonanza by notifying this office.

All legal advertisements will be charged for at the rate of \$2.00 per square for the first insertion. There will be no exception to this rate. No affidavit of publication will be made until the advertisement is paid for.

No advertising cut, one inch square or small will be accepted unless made of metal. No wood base cuts of this a will be used. Wood cuts are dangerous to forms and press.

Entered at the Postoffice in Tonopah as second-class matter

Questions of the Day

Many of the questions coming before the meeting of the American Mining congress, to be held at Spokane, Washington, during the last week of the current month, are of vital importance to every mining man and investor in mining stocks in this country. They are not local questions, of importance only to those directly or personally interested, but are equally as important to everyone interested in the mining industry of this country, whether the precious metal industry, the iron and steel industry, or the coal mining industry, says the Mining Record.

It has only been recently that through the efforts of the American Mining congress there has been established a federal bureau having under its care the solving of many practical questions dealing with safety of the miners, in both coal and metal mines, with the more economical treatment of ores, and with other matters of importance to the mining interests of the country.

The work accomplished by this bureau, and other matters bearing upon the relation between the federal government and the mining interests, will be among the foremost questions to be discussed at the meeting. The laws governing the mineral and other public lands will come in for serious discussion, as this is a subject that has a very vital importance at this time, particularly in view of some of the rulings which have recently been made in connection with cases arising under these laws.

Taxation of mining property, another question which has come prominently to the fore during recent weeks on account of certain legal decisions and by reason of a constitutional amendment affecting this class of property which has been submitted to the voters of one of our leading mining states, will also receive serious consideration.

The ever present question of protection of the mining investor, which by the way in reality is as much a matter of individual judgment as it is of state protection, will naturally receive a large share of attention. So will the workmen's compensation acts of this country and of foreign countries, under which workmen receive relief in some measure for injuries sustained in the performance of their work. This latter is of peculiar importance to every mining center in the country, not merely the precious metal regions, but possibly of even greater importance to the coal mining interests of the east and the west.

These are only a few of the questions to be under discussion at this meeting of the mining men from east and west. They are possibly of more vital importance than are some of the others, nevertheless there are many other matters to receive attention at this meeting which are of real concern to everyone, east or west, who is interested in the mining industry.

And who is not interested in the mines of the country? It may not be in the gold or silver mines of the west—but consider the copper mines, the iron mines and the coal mines. Can it be said that there is one of us in the whole United States who has not a strong, a vital, reason for desiring to know what is being done at the mines?

The American Mining congress at its meeting will discuss questions of importance to every individual in this country.

Supposing that there were a dozen opportunities for the Tonopah merchants to increase their trade by effecting a live organization in this city, and supposing the merchants failed to take the initiative while the Goldfield merchants were wide awake and grabbed the trade that could have come to Tonopah, don't you suppose it would make some people mad?

Now comes the state police claiming credit for the capture of three convicts who escaped from the penitentiary during the last two years. The state police sent out circulars and the arrests were made by officers who read the documents. Leather medals should be presented to the state policemen for their heroic work in effecting such captures.

Every time the coal runs low in the Bonanza official coal box, it snows. As a result subscribers in arrears can settle by sending their equivalent to the indebtedness in coal.

One thing is certain, and that is nearly every family in the United States will have a Thanksgiving dinner even if they have no real cause to be thankful.

Well, we still have the war in Mexico to supply us with news, now that the Balkan trouble has been called off in the ninth inning.

Toilet Goods As GIFTS...

We carry at this season, and all seasons, a very adequate line of such toilet articles as

CLOTH BRUSHES, HAIR BRUSHES, HAT BRUSHES, WHISKS, MIRRORS, NAIL BRUSHES, MANICURE ARTICLES, ETC.

This is a good season to buy them because our stock is at its best.

It is a good time to buy such articles for your own use, too, for unless wants of this nature are provided for at holiday time they are often neglected.

If you need such goods you are sure to be pleased with our assortment and prices.

Prouty's Union Drug Store

Heavy overcoats that have been out of fashion for the last month are again to be observed as one of the principal items in wearing apparel.

It looks like rubbing it in to ask Turkey to celebrate Thanksgiving day.

A new revolution in Nicaragua or Porto Rico wouldn't go bad just now.

MINE SAFETY CAR TO EDUCATE MINERS

Mine safety car No. 2 is due in Colorado this coming week on visits to various coal mining camps in the state, says the Denver Mining Record. Its purpose is to instruct the miners in the rescue of comrades at times of disaster. Each car of the eight that have been sent out by the bureau of mines is fully manned by a corps of miners trained in rescue work and is equipped with the latest rescue apparatus and first aid to the injured, and is ready at a moment's notice to proceed to the scene of a disaster, where the rescue corps, in co-operation with the state mining officials, will do everything possible to save entombed miners. The saving of human life is the emergency feature of a general campaign of educational work among the miners who will not only

be taught the use of the rescue apparatus, but also the proper way to take care of an injured miner. There will be illustrated lectures on the use of explosives, electrical equipment in the mines, fire prevention, sanitation and first aid surgical treatment. The lectures are given in the car at each camp visited. They have proven of practical use in times of disaster at coal mines, and have also proven of value to the metal mining regions, where some work of instruction has been done during the past year.

DEFENDANTS DEMUR IN SCHLOSS' SUIT FOR STOCK

Judge Miner of Goldfield as attorney for Louis Schloss in the suit of the latter against Key Pittman and the Tonopah Merger company, in which R. C. Hall is one of the defendants, has received copies of Hall's demurrer. Hall alleges that the action should not be in the name of Schloss but of the Golden Anchor company. Pittman's demurrer is already on file and is simply a technical statement that the allegation of the complaint does not constitute a cause of action.

Sage Restores Gray Hair To Natural Color

IF YOU HAVE DANDRUFF OR IF YOUR HAIR IS TURNING GRAY TRY SAGE AND SULPHUR

The old idea of using Sage for darkening the hair is again coming in vogue. Our grandmothers had dark, glossy hair at 75, while our mothers are gray before they are 50. Our grandmothers kept their hair soft and glossy with a "Sage Tea," which also restored the natural color.

One objection to using such a preparation was the trouble of making it. This objection has been overcome by the Wyeth Chemical company of New York, who has placed on the market a superior preparation of Sage, combined with Sulphur and other valuable remedies for dandruff, itching scalp, and thin, weak, falling hair.

The beauty of the hair depends more on its rich, even shading than anything else. Don't have dry, harsh faded hair, when a simple, harmless remedy will bring back the color in a few days; and don't be tormented with dandruff, itching scalp and loose, falling hairs. Wyeth's Sage and Sulphur Hair Remedy will quickly correct these troubles, and give color, strength and beauty to your hair.

Get a 50 cent bottle from your druggist today, and prove this to your own satisfaction. All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented.
